Contica & DevScope

A new, all-encompassing integration partnership that simplifies data-driven growth.

contica   **dev>scope**

>>

Our partnership with DevScope strengthens our system integration offering and gives our customers access to industry-leading expertise. It also expands our capabilities in BI and AI – two key areas that drive innovation and create business value.

/Stefan Wånggren, CEO Contica

The value for you:

→ **World-class integration expertise**
Contica's delivery model, led by CTO Ahmed Bayoumy, combines security with scalability. With DevScope as our partner, and Sandro Pereira's team complementing our expertise, we further strengthen our position. Together, we deliver world-class integration expertise.

→ **Ready-to-go solutions**
Migrating from BizTalk Server to Azure Integration Services (AIS)? Enhancing your integration solution in AIS? No matter the platform, we have the right expertise and packaged solutions for a seamless delivery. We optimize your integration platform to align with your data infrastructure – ensuring the right data is in the right system at the right time.

→ **Transforming business data into business value**
We turn business data into business value through AI, machine learning, and insights in Power BI. With the right data in the right place, you can make smarter decisions, automate processes, and drive innovation – all to ensure future-proof, data-driven growth.
